e-mail address

password, you should type this password in
the form area to obtain access to the event
registry or information of other events for
which you have registered previously.

If you have previously registered a
password and don’t remember it, you
should click on the button “Forgot
Password,” which will send a message with
the password to your e-mail address.

3. Click on “Enter.”

4. The system will display the registry form.
Please fill in the forms for personal information.

In the “Country” area, you should indicate the
country that you represent. If you do not
represent a country, you should select
“International Organization” from the drop-down
list.

To select a specific document, click on the description.

The “User Profile” tab shows your basic information from registering in the system, which remains for future events.

This basic information can be seen only when you log on to the system with a password, not when you are just providing an event code.

If this is the first time you have registered for a password, you should type in “New Password” area and then type it again in the “Re-type” area and then click on the “Change” button.

If you have previously defined a password and wish to change it, you should type the password with which you accessed the system in the Old Password area and type in the “New Password” and “Re-type” areas the new password that you want to use.

Each time that you change your password,
the system will send a message to your e-mail address notifying you of the change.

To log off the system, click on the “Disconnect” button.
