Remarks

- Commitment of the Government of Argentina for the development of a **decentralized drugs policy** with strong component in **local participation**.
- A challenge in the **strengthening of the capacities** of the provinces and municipalities for the implementation of their **own local drugs policies**.
- Conviction in the importance of **creating scientific evidence** in public policies, including the provincial and municipal level.
- Generation of **social and healthcare networks** in the provincial and municipal levels for the support of the **most in need populations**.
- Promotion of the **coordination between the stakeholders** on drug policies in different jurisdictions.

Thank You
