General background on RR@G

- The RR@G initiative was approved by the GAFILAT (then GAFISUD) Plenary on July 2010.
- RR@G has an on-line platform to securely exchange requests and information, maintained by the FIU at the ICD of Costa Rica.
- Membership of RR@G consists of two contact points appointed by each member country; likewise, there are two contact points of Spain and one from France, both observers to GAFILAT.
- The Secretariat of the network is held by the GAFILAT Executive Secretariat.
Exchange of information at a glance

- Requests between RR@G member countries are exchanged and responded through the online platform.
- When a RR@G member country requires information from another country, or vice versa, the Secretariat liaises with the relevant network’s Secretariat to obtain contact information:

  - ARIN-AP: Asia Pacific
  - ARIN-EA: East Africa
  - ARIN-SA: Southern Africa
  - ARIN-WA: West Africa
