National Anti-drug Plans

- To respond to the new challenges of the drug phenomenon to the world and the country.
- To reach effectively the different dimensions of the problem, to reduce the demand, and the supply.
- To strengthen the institutions and the legal framework to respond to the transformations that society has experimented
National Anti-drug Plans

(Difficulties encountered)

Institutional Building

• Drafting and updating the legal framework
• Ratifications of Conventions and International Treaties
• National Commission Strengthening
• Developing National Observatories

National Anti-drug Plans

(Difficulties encountered)

Demand Reduction

• National Strategies for Prevention
• Actors trained and motivated to execute the prevention strategies at national, regional, and local levels
• Updated registries of treatment centers
National Anti-drug Plans

(Difficulties encountered)

Supply Reduction

• Strengthening of national and international networks to exchange information about organized crime
• Training of special anti-drug agents
• Optimization of state policy execution: drug trafficking interdiction, prevention and money laundering control, and seized goods.
• Chemical Precursors Control

  - Institutional and Legal Development
  - Demand Reduction
  - Supply Reduction

• **VI. Specific Objectives**
  - (Logical Framework) How are they going to do it? Components, Activities, Indicators, Means of Verification, etc

• **VII. Monitoring and Evaluation**
  - How they are going to evaluate, instruments? How they are going to monitor? Systems in place to do these kind of activities.

National Anti-drug Commissions Personnel’ Training

“High Skill Group Workshop”

• To Identify, to learn and to apply the concepts and basic methodology to integrate and develop high skill working teams in an effective way in three dimensions: with your boss, with your co-workers and other team members which intervene to give assistance to the people at the National Commissions.
National Anti-drug Commissions Personnel’ Training

“High Skill Group Workshop”
To train and skill the participants at the management level to support these activities:

• To strengthen the philosophy defined by the National Commission
• To apply the new models of team work
• To apply motivation programs
• To improve the work environment
• Acceptance of changes coming from cultural organizations to the working group

National Anti-drug Commissions Personnel’ Training

“Logical Framework Workshop”

“The Project Planning.” The main focus of this course is to develop the participants’ skills in the use of the Logical Framework tool for the crafting, planning, management and development of projects. The use of this tool will facilitate and bring advantages to project designing, considering strategic elements such as; objectives, results and impacts, identifying external and internal indicators, and the assumption of risks which could influence the success and failure of the program and project. “Logical framework facilitates the planning, execution, and evaluation and development of an intervention.” OECD, Glossary of key terms in Evaluation and Results-Based Management, Paris, 2000.
